Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim as presented is confusing. The preamble is directed to a seamless shoulder strap which is defined by three unfinished layers superimposed on each other. Further, the claim requires the cutting of these layers to form a smooth edge seam. Is Applicant claiming the method of forming the strap, the unfinished strap or the finished strap. As amended the claim is difficult to understand since all three aspects are presented. Clearly, the unfinished product is different from the finished product and the finished product can be produced by different methods than directed in the claims. The claim lacks clear scope so as to ascertain the metes and bounds of the patent protection desired.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Hyams et al. (US 5,165,113).

Hyams provides a seamless shoulder strap comprising upper and lower elongated strips of fabric creating an internal compartment therebetween (column 1, lines 63-68 through column 2, lines 1-26). An intermediate strip of thermoplastic fiber construction located between the upper and lower elongated strips of fabric (column 4, lines 67-68 through column 5, lines 1-4). The fabric strips are heat fused together and excess raw edges of the fabric strips are cut off without an inturned seam resulting from the shoulder strap (column 6, lines 18-34).

Response to Amendment

1. Applicant's amendments and accompanying remarks filed 07/03/01 have been entered and carefully considered. Applicant's amendment is found to overcome the claim objection set forth in the last office action. Despite this advance, the amendments are not found to patentably distinguish the claims over the prior art and Applicant's arguments are not found persuasive of patentability for reasons set forth herein below.

Response to Arguments

3. Applicant's arguments filed 07/03/01 have been fully considered but they are not persuasive. Applicant argues that the strips of fabric of Hyams et al. are not heat fused together. Examiner disagrees with Applicant's argument. Hyams et al. Teaches in column 2, lines 10-16 and lines 32-39 laminating three layers of material together under heat and pressure to provide an integral strap portion without seams.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
